### EXONENT OF JIU-JITSU WILL DEMONSTRATE HERE

Prof. Tekahashi, the thirty-seven-year-old claimant of the world's welterweight catch-as-catch-can wrestling title, will appear at the opera house here on Saturday night.

The professor is one of the world's most famous exponents of jiu-jitsu, both as a participant in matches and as an instructor. At the present time he is touring Canada. He has been in the wrestling game for twenty years or more, having started while in high school in Japan. In 1914-15 he held the amateur welterweight championship of Japan, which he forfeited when he sailed for the United States in 1916. During the great war he served with the U.S. Army as an instructor, holding the rank of captain. For the past two years he has been instructor of the jiu-jitsu art for the Vancouver city police, as well as staging many matches on the side. In all, the professor has appeared in 237 matches and has lost on but one occasion. This one defeat goes to Ad Sautaire of Germany, ex-light-heavyweight champion of the world.

A preliminary four-round boxing match will be staged between "Red" Rorstrom, of Blairmore, and Duke Hyssop, Lethbridge. For further particulars, see bills.

### 'THE BARKER' COMES TO BELLEVUE

This week end, Friday and Saturday, at Bellevue theatre, Milton Sills best picture since "The Sea Hawk."

Special musical and sound effects are provided by the orchestraphone, that will add wonderful realism to this outstanding production — A STORY OF THE BIG TOPS.

### PUBLIC LIBRARY

One hundred and seventy-six volumes were received from the University of Alberta last week, also twelve from Mr. Knapman, one from Mr. Philfold and a donation of \$10.00.

There are 1245 books now classified and ready for your use. An increasing number of people are using the Library. Ever since the doors were first opened there has been new members joining up every time the library is open. The success so far achieved is far greater than the committee expected or even hoped for.

### FUGITIVES OF LOVE AND HATE IN FOX PICTURE, "FUGITIVES"

"Fugitives," the Fox film which appears Tuesday at the Orpheum, presents a drama of gang war, hate, persecution and tender moments of youthful passion and affection. Madge Bellamy vividly portrays the principal character. She is supported by Don Terry as her handsome leading man. Miss Bellamy is dramatically superb in her characterization of an innocent girl convicted of murder.

Others in the cast are Arthur Stone, Earle Foxe, Lumden Hare, Matthew Betz, Edith Yorke, Hap Ward and Jean Laverty. William Beaudine directed the picture.

Jack Green is building a large addition to his garage at Bellevue.

### PLAN RECEPTION FOR BISHOP SHERMAN

Following the Confirmation service to be held at St. Luke's church on Wednesday evening next, a reception will be tendered by church members and friends to Right Rev. Ralph Louis Sherman, D.D., Lord Bishop of Calgary, at the Elks' hall here.

### BALDY STRANG'S CHAU-TAUQUA ENTERTAINMENT RETURNING TO COLEMAN

As will be noticed elsewhere in this issue, Baldy Strang's Chautauqua Entertainment will appear at Coleman opera house on tomorrow night at 8 o'clock, under the auspices of the Coleman High School Literary Society.

This is giving short notice, but judging by the reception tendered this organization last year, there is no doubt but that a bumper house will greet them on this occasion. The net proceeds will go towards purchasing sports equipment.

**CHAPTER XVIII.—Continued.**

"Come in," she called.

Donald followed Wainwright, his heart-beats peculiarly accelerated. For an instant he could not distinguish objects in the dim interior. Then his eyes rested on Connie, sitting demurely in the corner. She wore a gingham dress of blue, with white collar and cuffs. A dark belt was fastened snugly at her slender waist. Tiny high-heeled shoes peeped out beneath the hem of her skirt. Her beautiful long hair down her back in a braid was fastened at the nape of her slim, round neck with a narrow black bow. She rose and crossed the room to meet him, her high heels making her little lithe body appear much taller. There was something fragile about her beauty, some of the colour gone from her cheeks, and just a hint of shadows under her eyes.

Donald held out his hand. "Good evening, I'm glad to see that you are better," he said awkwardly.

A slender, warm hand crept timidly into his, and his fingers closed on it gently as on a flower. He stared down at her, thrilled by her loveliness. She raised her eyes with their bewilderingly long lashes slowly to his face. With a sudden leaping of his heart, Donald realized that he was in love.

They talked desultorily while Connie sat timidly on the edge of the uncomfortable chair. She could not feel at ease in the high, narrow shoes and the enveloping skirts. And as she essayed to cross the rough floor with an assumed air of ease, her feet turned, and she would have fallen had not Donald caught her in his arms.

He raised her to her feet and backed furtively, and he fancied he could feel the warm beating of her heart. With an embarrassed apology, she slipped from him, crossed to the table and lighted a candle. And presently he took his leave, Wainwright walking with him down the darkening trail.

Wainwright was in one of his brooding moods. For a few minutes he was silent. As they neared the bluff he spoke.

"After witnessing my daughter's distress the morning of the race I am afraid that you feel harshly toward me for allowing her to be placed in such a humiliating position. You have been exceedingly kind to us; therefore, I feel that I should remove the circumstances which have placed me in my present position. As I told you that day, I have allowed my pride to withdraw from my daughter her inherited rights. I will be as brief as possible."

**Guard Against FLU — Sore Throat The First Warning.**

Few families will escape. This epidemic constitutes a real danger. Health authorities everywhere warn the public of the danger of the common cold. "Flu" usually starts with Sore Throat. Unless the germs are killed by some antiseptic treatment a serious malady may develop.

A simple treatment is to gargle the throat three times daily with Nervilene. The antiseptic properties of Nervilene quickly destroy the germs in the throat. Of course if the chest is sore Nervilene should be rubbed over the affected area—lots of rubbing—it can burn a blister, but will bring out the congestion and break up the cold.

To prevent "Flu" or colds take a stimulating headway Nervilene will prove most effective. It is hardly necessary to point out that the bowls should be stimulated, and the system purged of all waste materials. For this purpose Dr. Hamilton's Pills are recommended. They act without griping or discoloration of any kind. This combination treatment of Nervilene and Dr. Hamilton's Pills will prove a very satisfactory prevention for Grippe, Flu, etc.

"My father, who took great pride in the family name, planned a political career for me even from the day of my birth. By natural taste and temperament I was quite unfit for public life. I might have been a great trial to him, from the boyhood I evinced a great love for the study of botany and ornithology. He would go into a red rage when he found me in the garden studying flowers under a microscope or stalking birds in the shrubbery.

"At college I was not a success, either socially or in my class. I did not enter social life or college sports, and the course of study set for me by my father bored me extremely.

"During my third year at college I met Connie's mother. Until that time no woman had entered my life, although my father had hinted his plans for my marriage as soon as I had finished my course.

"To me any flower show, however small acted as a magnet. One day I stood gazing in the window of a tiny florist's shop on the Strand. A girl was kneeling among the flowers, and as she lifted her head our eyes met. She was like a golden lily. Her hair was like Connie's hair, and the blue of her eyes was the blue of the pansies she held in her hand. And her name was Constance."

He paused for an instant.

"Her father, who had been a rector in a small parish in the south of England, died just previous to our meeting, leaving his motherless child without kith or kin. Lest I weary you I may say briefly that we were married. My father would not even grant me an interview, but wrote to me saying that marrying as I had done had honored me forever from his door. I did not care. I was happy, supremely happy, I told myself, with my mother, and we set out for British Columbia."

"'Ah!' he breathed softly, 'that voyage! We could not afford it, but we travelled first-class; it was our honeymoon and we were young. We had never been to sea before, and the novelty of it all wove a spell about him. As we walked the deck we talked joyously of our wonderful future the mysterious Great West."

"Our first year in Vancouver was one of blessed content. There is no love that could be greater than ours. Clerical work was scarce, so I took any job that offered. I would come through all kinds of weather, ship home black with coal-dust or white with lime; and my wife would cry out merrily as she threw herself into my arms. We turned our hardships into jests."

A smile of infinite tenderness played about his eyes as memory recalled the golden days with the woman he loved.

"The next winter I was taken grievously ill. I lay helplessly on my back while my tender wife tramped from house to house teaching parlor to parlor. Day after day she made her daily rounds to keep up in the bare necessities of life, and pay the doctor's bills."

Wainwright's voice sank and almost failed him for a moment. Recovering himself, he resumed his story.

"She would come home at night, tired and worn, to fall asleep in a chair by my bedside, while I raved in a fever. She went without food to buy dainties for me. She never lost her cheery smile—but it killed her. She died giving birth to—to—Constance."

Tears rose to his eyes, and for a moment he covered them with his hand. With a great effort he continued.

I became embittered, changed completely out of any semblance to my former self. I cursed my father. I cursed the world. I would have welcomed death, but as I looked down at the tiny mite by my dead wife's side, I knew that I must fight to live.

"A short time after, I received from my father a letter in which he asked my forgiveness. I was unfeignedly sorry. I tried to make my own way in the world, yet my father had turned me brutally away. My wife had died but as brief as possible."

**BOTHERED WITH ECZEMA 2 YEARS**

**Itched and Burned. Formed Eruptions. Healed by Cuticura,**

"I was troubled with eczema on my hands, limbs and feet. It began with an itching and burning and later formed sore eruptions. The irritation was so bad that I could hardly stand in. At last I suffered no more than a slight attack.

"I tried different remedies but they all failed to help me. I began using Cuticura Soap and Ointment for relief. I continued the treatment and now I am completely healed."

(Signed) Mrs. John T. Wilkinson, Tammagouche, N. B., Sept. 1, 1928.

Clear the pores of impurities by daily use of Cuticura Soap; then rub with Cuticura Ointment as directed. Use Cuticura Soap and Cuticura Talcum in fragrance and fragrance-free.

Cuticura Shaving Stick 25c.

from overwork and lack of food. I wrote to him in a black rage a letter that must have scorched his soul.

"For four years I eked out a miserable existence in the City. My health broke down again, and my doctor warned me that I must get to a higher altitude. I feared of this place, turned everything into cash, and came here, bringing Connie with me."

"My sole income has been derived from writing articles on Nature for the newspapers and magazines. Several times my father has advertised in the newspapers, asking me to return. I read of his death two weeks ago. For Constance's sake, I am going to start for England tomorrow."

Wainwright's head dropped listlessly as he concluded his story. All energy, all strength of bearing, were gone. He had voiced the bitter remembrances he had voiced had brought a look of mental anguish to his face. He stood staring mutely before him.

(To Be Continued.)

**Recipes For This Week**

(By Betty Barclay)

**SLICED LEMON PIE**

1½ lemons.  
2 eggs.  
1½ cups sugar.  
¾ cup water.  
1 tablespoon melted butter.  
½ teaspoon salt.

Grate the rind of one lemon. Peel white part from lemons and slice the pulp very thin, discarding seeds. Beat eggs until light, add sugar gradually, then grate rind, water, butter, salt and lemon slices. Bake between two crusts. Put into hot oven (450 degrees). After 10 minutes reduce heat to moderate (350 degrees) and continue baking 30 minutes longer.

**SALMON TURNOVERS**

Chop fine one salmon and one hard-boiled egg. Stir half a teaspoon monosodium cornstarch in a half a cup milk over slow fire. When thickened beat in salmon, one tablespoon butter and 2 pounds cheese. Wet edges with cold water. Put a good tablespoon of salmon mixture on half of crust, fold over other half and press well together. Cut small slits on top, brush with milk and bake in quick oven.

No need to suffer with corus, or run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

**Flames From The Sun**

Sometimes Reach Height Of Half a Million Miles

Flames leap outwards from the surface of the sun at the rate of 20,000 miles a minute and sometimes reach a height of half a million miles, says Dr. Ferdinand Ellerman of Mount Wilson Observatory, California. When these " prominences" were first noted, during a complete eclipse, early astronomers were divided as to whether they belonged to the sun or the moon. In 1868, Sir J. N. Lockyer, the astronomer, found he could observe them by a spectroscope without waiting for an eclipse, and proved that they issued from the sun. It was while studying these tongues of flame that he became convinced of the existence of helium.

"May I call on you?"  
"I'm sorry, but I'm married."  
"Well, I'm married and just as sorry."

Minard's Liniment prevents Flu.

**Selling Furniture From Nelson's Ship**

Three Pieces From Cabin To Be Disposed Of

Three pieces of furniture which Nelson used in his cabin in the Victory, and which today occupy their former position in the old battleship at Portmouth, are to be sold by their owner.

The furniture consists of a mahogany dining table (which has folding leaves), sideboard, and wine cooler.

According to the description affixed in the cabin, the furniture was made by W. Wilkinson of Ludgate-Hill, in 1860.

When Nelson's body was being brought to England, the Victory put back into Rosia-Bay, Gibraltar, and the furniture was put ashore, where it is believed to have been secretly sold by one of Nelson's servants.

In 1862 it was bought by the grandfather of the present owner, who lent it to the Victory in October last.

**BABY'S OWN TABLETS WIN GREAT PRAISE****Many Mothers Always Keep Them In The House**

Thousands of mothers state that they know of no other medicine for little ones to equal Baby's Own Tablets. They always keep the Tablets in the house for the cure of childhood ailments, or if sickness does suddenly grip their little ones they feel safe with such a remedy at hand.

Concerning the use of the Tablets Mrs. Donat Ploudre, Tingwick, Que., writes: "I have nothing but praise for Baby's Own Tablets. They are safe medicine. I have given them to my two little ones and I am glad to state that the Tablets have always kept them in perfect health. I feel no qualms about giving them to my children."

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and relieve griping. They are a good refrigerant; break up colds and simple fevers and make the cutting of teeth painless. The Tablets are absolutely safe, being guaranteed free from injurious drugs. They are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Real Thrillers**

The teacher had been talking about books.

"And what are your favorite books, Jackie?" she asked a young hopeful near the bottom of the class.

"Cookery books, Miss," was the astonishing reply.

"Cookery books?" echoed the teacher.

"Why?"

"Because they are so full of stirring incidents!"

A Scotchman may be tight but he'd give his right arm to a friend provided he had nothing in his hand at the time.

**Record Of Juvenile Wonder**

Boy Born In 1721 Possessed Most Unnatural Ability

Old records cite the case of one juvenile wonder named Christian Hinselar, born in 1721, at Dubcek, who at the age of 10 months could speak and repeat every word said to him. At twelve months he knew the Pentateuch. In his second year he learned most of the Bible—Old and New Testaments. In his third year he talked history and geography. In his fourth year he mastered French. He was taken to Copenhagen before the King and proclaimed a wonder. He died June 7, 1725, from a weak constitution.

Many mothers can testify to the Virtue Mother Graves' Worm Extterminator, because they know from experience how useful it is.

At the first sign of it. Its Healing Qualities are Amazing. THE OLD RELIABLE.

**How far would you go to be sure of a better Oil?**

Knowing that a better oil means smoother performance, longer life, greater economy and bigger trade-in value for your car, you'd probably go a long way to be sure of a better oil.

That's what Imperial Oil Limited did—went all the way to tropical South America for the crude oil of which to refine Marvelube.

There's lots of crude oil available right at Canada's front door. If Canada's largest and most modern refineries had been able to evolve as good an oil as Marvelube from locally available crude they would have been glad to do so. Peruvian crude made a purer, carbon-free, fuller-bodied oil—an oil that meant better lubrication—so Peruvian crude was decided upon.

The decision set a new standard in motor oils. Aircraft operators, the most particular buyers of oil, are enthusiastic about Marvelube because it has given them a longer period of operation between engine overhauls, and a greater margin of safety. You can enjoy the same benefits in your car, and there is a grade of Marvelube that is refined to meet the exact requirements of your car. Consult the Marvelube chart at good service stations and dealers everywhere.

The decision set a new standard in motor oils. Aircraft operators, the most particular buyers of oil, are enthusiastic about Marvelube because it has given them a longer period of operation between engine overhauls, and a greater margin of safety.

The many friends of Ed. Royle, the car No. 1, who has been for the popular superintendent of Mine Res. last six weeks confined to his residence suffering from that dreaded complaint, the 'flu, will be pleased to learn that although still unable to leave the sick room, he is making

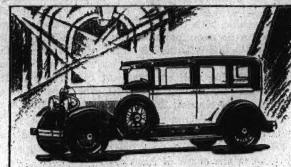

slow and steady recovery, thanks to the constant attendance of Drs. Stewart and Borden. It is Ed's intention when sufficiently recovered, to travel and spend a few weeks at Victoria, B.C., with the object of still further improving his health before proceeding to take up his new duties.

The Crows' Nest Chapter, I.O.D.E., will hold a sale of work and home cooking, etc., in the Elks' hall on Saturday afternoon, April 27th, from 3 to 6 o'clock.

Vernon Booher paid penalty on the gallows at Fort Saskatchewan on Wednesday morning for the slaying of his mother, brother and two hired men on an Alberta farm.

## If you're Looking for CHARACTER

THERE are people who look for "character" in the car they buy. They want performance. They expect appearance. They appreciate luxury. But they demand individuality.

It was for such people that this finer Oldsmobile was created.

Leaving aside its astonishingly low price (now lower than ever) Oldsmobile is an exclusive car . . . a car of character and distinction. It is a fine car with all the engineering excellence, all the distinguished style, all the quiet elegance and luxury, with all the easy mastery of miles and minutes, and all the desirable attributes of a fine car.

And the attraction that Oldsmobile possesses is more than the result of its 62 h.p. high-compression engine . . . more than its handsome bodies by Fisher . . . more than its Lovejoy Shock Absorbers and scores of fine car features. It is the blending together, in one easily attainable car, of all the qualities which spell "character" in an automobile.

Only choice leaves grown at high altitudes go into the blending of Blue Ribbon Tea. That is why its flavour is so uniformly excellent. Insist upon getting it from your grocer—refuse substitutes of inferior quality.

## Canada's Opportunity and Responsibility

It has been said times without number that Canada occupies a paramount and responsible position as interpreter of Great Britain to the United States, and of the United States to Great Britain. Such views have been expressed, not so frequently by Canadians themselves as by leading men in Great Britain and the United States.

Within the past few years the opinion has been expressed by leading citizens of the Empire and of China, Japan, and other oriental lands, that Canada, because of its geographical position and its rapidly expanding trade across the Pacific, likewise occupies a strong position as interpreter of the Orient to the rest of the Empire. Canada is popular in China and Japan as compared with the United States and European countries.

In the councils of the League of Nations this Dominion also stands high, and deservedly so. It is recognized by other countries, and more particularly the smaller nations, that Canada has no selfish purpose to serve through its membership in the League; that, on the contrary, the Canadian attitude is one of disinterestedness, based wholly in a desire to render service to mankind. The Canadian position in the League has always been for peace, conciliation, recognition of the rights of others and, especially, not merely fair treatment but open generosity and sympathy for minorities.

Because of this unselfish attitude, Canadians are welcome in all lands, and the high opinion entertained for this country is proving a real asset to the business and commercial interests of the Dominion in the opening and development of foreign markets for Canadian products.

Now, one of the most influential men in India, Sir Rabindranath Tagore, the world renowned poet, outlines to Canada a duty which rests upon the young Dominion, not only to itself, or to a group of nations, but to wide world. Sir Rabindranath was a distinguished guest and speaker at the recent Conference of the National Council of Education held at Vancouver, and in his farewell message to Canada he gave expression to views which Canadians everywhere may well read, ponder over, and to which they should give heed.

"Canada," he said, "is too young to fall a victim to the malady of disillusionment and scepticism, and she must believe in the great ideals in the face of contradiction—for she has the great gift of youth; she has the direct consciousness of the stir of growth within her which should make her trust herself, which is the only sure way of trusting the world."

How true this last sentence! A man or a nation which does not trust herself, but lives in an atmosphere of fear and suspicion, can never trust others.

Continuing, this great Indian savant said: "Let Canada feel the sacred dawn of her life, that the expectation of human destiny is upon her as upon other sister countries which have just entered into the cycle of their promise. Canada will have to solve for the salvation of man the most difficult of all problems, the race problem, which has become insistent with the close contact of communities that had their isolation for centuries in their geographical and cultural exclusiveness. Canada will have to reconcile the efficiency of the machine with the creative genius of man which must be used in the practice of self-expression, reconcile science with religion, individual rights with the social obligation that it must acknowledge. She must dream of the introduction of honesty even in politics, which is the self-interest of the nation, knowing that such interaction can only have its sure foundation in international friendships. She must ever hope to be able to win the hearts of the world by offering the best that she produces."

Although his knowledge of this country was limited, Sir Rabindranath said Canada possessed a wealth of natural and material resources that would enable her to carry out a destiny free from "the fatigues that old civilizations suffer from in the shape of cynicism."

This is an inspiring vision of Canada's place in the world. It is one that calls for the best that every citizen, regardless of his race or creed, can contribute. And it is because the Canadian people of tomorrow will be a development of the cosmopolitan population of today that the Canada of the future will find within itself the ability, the sympathy, the international viewpoint, which will make possible such a great contribution to the future of mankind and the ultimate and lasting peace of the world, for, until the race problem is solved there can be no peace in any country, or in the world at large.

### Sleepers In Buses

Line Between Buffalo and Cleveland Has Comfortable Berths

A bus with sleeping accommodations was exhibited in New York recently. It has gone into service between Buffalo and Cleveland, according to the Great Lakes Stage Line, which operates between those cities and Philadelphia and New York. The bus will accommodate eighteen persons in six double and six single berths, all with outside ventilators. An electric ventilating system changes the air every five minutes.

### From Youth to Age

There are three trying periods in a woman's life: when the girl matures to womanhood, when a woman gives birth to her first child, when a woman reaches middle age. At these times Lydia E. Pinkham's Vegetable Compound helps to restore normal health and vigor.

LYDIA E. PINKHAM'S  
VEGETABLE COMPOUND

W. N. U. 1782

There will be hot water heat in the winter and fans in the summer. Coupling with the present schedule, the sleepers will operate only between Buffalo and Cleveland.

### Lend Household Treasures

Royal Family Very Generous With Things For Exhibition

An instance of the true democracy of our Royal Family is surely to be found in the way in which their household treasures are nowadays lent freely for exhibition to the public. After the Lansdowne House collection of domestic art treasures comes the Loan Exhibition of old English plate at 25 Park Lane, Sir Philip Sassoon's London home, to which the Queen, the Prince of Wales and the Duke of York have all lent household silver which members of the public would never otherwise have been privileged to see.

Policeman: How did the accident happen?

Motorist: My wife fell asleep in the back seat.

### Ontario Man Inherits Title

Will Go To France To Take Possession Of Property

Count Richard du Manoir de Jauays has lived for 25 years in one half of a frame house in the village of Westmeath, near Pembroke, Ontario. All that time he has known he was next in line to the family estates and titles, together with the fine old Norman chateau. The property which has now fallen to the Count on his succession to the family title is situated near Bayeux and it is his intention to leave Westmeath for France and his ancestral home together with his wife and their son and daughter.

The Count, who acted as house painter and general handy man in the unpretentious village of Westmeath, was known as Richard du Manoir. This is the second European title to be inherited by a Canadian within the past few weeks, the other case being that of the Earl of Egmont former rancher of Fiddle Alta.

### FEELING TIRED AND DEPRESSED

Then Try the Treatment With

It is good to sit in a quiet, dark, cool place, play chess and music will banish that kind of a tired feeling. Eat to weak all the time never to feel strong and vigorous to be without the usual leisure activities, note a condition of ill health that must be corrected or worse results will follow. Such a condition the doctor will prescribe and it is caused by this blood. For relief in such condition nothing else can equal Dr. Williams' Pink Pills, which enrich and purify the blood, bringing new strength and energy. Among those who have found new health through the use of these pills is Mr. G. E. Hooton, R.R. 4, Elgin, Ont., who says: "For a long time I was unable to get up in the morning, my back and feet tired and depressed most of the time. My blood seemed to be in a bad condition, so much so, that I slept poorly at night and like eating. I tried a doctor, but his treatment did not help. Then one day I read an advertisement of Dr. Williams' Pink Pills, describing them as a medicine that would cure me much like my own doctor. I decided to try this remedy. I took the pills for about two months, and the result was wonderful. I gained fifteen pounds in weight and strength. Breathing becomes comfort and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

Strangled With Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. D. Kellogg's Asthma Remedy is beyond compare. It is the wealthiest in the world. They are carrying a motion-picture outfit with them. For the past three years Clay has been a successful fruit-grower at Grimbsy.

Explore Arctic For Minerals

Sergeant—Clay, Superannuated

Mountie, Joins Private Party

Staff-Sergeant Sidney G. Clay, of the Royal Canadian Mounted Police, left Toronto recently en route to the Arctic Circle. He was recruited from the force having served 22½ years, and is going back to the Arctic regions not with the Mounties but with private exploration interests. For several years he was in charge of the farthest north outpost of the RCMP. On his first northern trip he started for Edmonton with dog teams and canoes as his only means of transport. This time aeroplanes and motor sledges will be used.

The object of the expedition is to explore for minerals. The country around Chesterfield Inlet, according to Mr. Clay, is the wealthiest in the world. They are carrying a motion-picture outfit with them. For the past three years Clay has been a successful fruit-grower at Grimbsy.

## CONFERENCE ON REPARATIONS ENDS IN FAILURE

Paris.—The second reparations committee has failed in its purpose to re-define German reparations for the damage of the Great War.

The conference which for ten weeks has been engaged in an effort to set a figure mutually acceptable to the allied nations and to the German republic seemed definitely wrecked.

A sub-committee was appointed to prepare a report to the several governments stating the "why" of the failure. This sub-committee, conceivably, may furnish a loophole through which revival of the conference could be sought but general opinion did not anticipate such a development.

Dr. Hjalmar Schacht, chief of the German delegation, made continuation of the conference hopeless when he stated definitely that payment of even half the total sums demanded, must be conditional upon abolition of the Danzig corridor, revision of the frontier of Silesia and immediate return of the Saar Valley to Germany.

A sub-committee, headed by Lord Revelstoke, had met to endeavor to bring about an agreement between the Germans and the allies on the first ten or fifteen points.

Discussion never got beyond the first anomaly. Dr. Schacht declared that Germany would never under any circumstances pay annuities greater than \$1,600,000,000 marks (approximately \$36,000,000), and for no longer than 37 years. She would make these payments, he concluded, only if the allies made it possible for her to increase her ability to pay by giving her access to raw materials and other resources of which she was now deprived.

One of the allied experts immediately remarked that "Dr. Schacht wants the experts to revise the treaty of Versailles, which was certainly not comprised in our terms of reference."

The chief of the German delegation was then told plainly that his attitude led finally toward breaking up the conference, with the result that reparations payments would revert to the Dawes plan under which Germany must pay \$2,500,000,000 marks annually (approximately \$625,000,000) instead of \$1,800,000,000 marks (approximately \$450,000,000) demanded by the allies for the first annuity.

"I understand," replied Dr. Schacht, "but it will be impossible for Germany to execute the Dawes plan and she will necessarily demand that the clause giving protection against ruinous transfers comes into play."

The allied and American experts now are unanimous in agreeing that there is no further hope of coming to terms with the Germans.

## Snubbed By Chicago Mayor

Thompson Sent "Collect" Cable To Young Australian League

Chicago, Ill.—Major "Big Bill" Thompson's political enemies were making the most of the official snub the cowboy mayor has extended to 160 members of the Young Australian League who plan to visit Chicago, April 22.

The youthful British subject called Mayor Thompson that they were coming. Instead of extending them a welcome, Thompson sent them a "collect" cable saying that Chicago had many interesting sights. It cost the Australians \$25 to learn that the Mayor, famous as a detractor of King George V, was not enthusiastic about their visit.

Commenting upon the slight editorially, the British American, published in Chicago, said: "We can scarce believe Big Bill would be guilty of such stupidity."

The Australian delegates will be welcomed by the Association of Commerce, Rotary, and the English Speaking Union.

## Seeks Entry Into Norway

Oulu, Norway.—Refused entry into Germany, Leon Trotsky, exiled Russian Communist, is seeking permission to come to Norway. The government will take the matter under consideration.

## Rural Credits In B.C.

Victoria, B.C.—Offices of the federal farm loan board have been opened here by the chairman of the provincial committee, George Saenger. One thousand applications for rural credits already are in.

## Report Is Satisfactory

Sir Henry Thornton Pleased With Record Of C.N.R.

Ottawa.—The special standing committee of commons on Canadian National Railway affairs held its first meeting recently, when General Fiset, Liberal Rimouski, was elected chairman. Sir Henry Thornton, president of the Canadian National Railways, stated that the report of the railway showed the calendar year, 1925, was the most satisfactory of his history, both financially and from a working standpoint.

Out of every dollar traffic receipts earned by the C.N.R., 17.6 cents was available for interest. On United States class 1 railways only 15.21 cents was available for interest. Sir Henry thought this was very satisfactory, particularly as many lines were in new districts.

To the question whether the increased receipts of the C.N.R. were at the expense of the Canadian Pacific, or attributable to national growth, Sir Henry said the net earnings of the Canadian Pacific attained a record last year.

"Therefore I should say," Sir Henry asserted, "if I were a C.N.R. official, that the National is an asset to the Canadian Pacific. As a C.N.R. official, I consider the Canadian Pacific is an asset to the Canadian National."

"Then why not bring the C.P. down into Nova Scotia," asked Colonel Cawley, Conservative, Picton.

"Well the C.N.R. is not yet a Christmas tree," Sir Henry replied.

As to whether another large wheat crop was expected this year, Sir Henry explained it was impossible to forecast any particular year. However, there had been a steady and marked increase in the quantity of wheat produced, extending over a decade of years.

He explained that it was generally considered that the Great Lakes had a sixty-year cycle of high waters and similar cycle of low waters which must be ascribed to the precipitation. Canada was entering on the wet cycle now and it might be prophesied that the greater rainfall would result in greater crops.

The heavy carryover of wheat would assure much business in grain carrying this year.

Colonel Geary, Conservative, Toronto, inquired if there had been any adjustments in railway rates. Sir Henry replied that rate reductions effective in 1928 had reduced the revenue of the Canadian National Railway by \$905,000 as against 1927.

Colonel Geary further inquired if there had been any let-up on the maintenance standard of the system and was informed that the reverse was the case, as constantly higher standards were adopted.

The minister of railways explained that the Hudson Bay Railway was not in the accounts of the National Railways. The C.N.R. was simply acting as the agents of the government in constructing this railway.

## Urge That Strict Measures Be Taken

Members Of Manitoba Legislature Would Prosecute Careless Motorists

Winnipeg—Prosecution in every case in which a fatality occurs as a result of improper driving on the highways of Manitoba was urged by several members in the Manitoba legislature during a discussion which members hoped would serve to bolster respect for law and reduce the number of serious accidents. One member declared "pedestrians were not even safe on the sidewalks" while another deprecated the "stressing of the high speed possibilities of motor cars by manufacturers and salesmen."

Step Search For Lost Radium

Saskatoon.—The scientific search which has been carried on for two weeks in a vain endeavor to locate \$5,000 worth of lost radium has come to a stop. In the last stages of the intense search two loop operated radio sets were used without avail. The reward of \$500 still stands and it is still hoped that someone will find the little red para-rubber tube with its precious contents.

## Voting On Liquor Control

Halifax, N.S.—"Are you in favor of continuing the Nova Scotia Temperance Act?" will be the form of the question submitted to a referendum vote of the Nova Scotia electors this fall. A special committee appointed by the house of assembly drafted the above question in favor of a previous proposal that a vote be taken on the desirability of establishing a system of government control and sale of liquor.

## DEATH OF SIR CLIFFORD SIFTON, NOTED CANADIAN

New York.—Sir Clifford Sifton, K.C.M.G., K.C., prominent in Canadian public life for forty years, died in New York while sitting in a chair talking with his son, Fred. He was accompanied by his sons, Sir Clifford left his winter residence at Florida Beach, Fla., last Saturday, and was en route to his home in Toronto when death overtook him.

Although Sir Clifford had been troubled with heart weakness for about two years, his health was fairly good until last fall and he was quite sick when he left Toronto in November to go to Florida for the winter.

Sir Clifford Sifton, K.C.M.G., K.C., of Toronto, Privy Counsellor, former Minister of the Interior, whose death took place at New York, had been a figure of prominence in Canadian public life for forty years. Born in Ontario, in 1861, he came to Manitoba when a youth with his father, the late Hon. W. J. Sifton, locating at Brandon.

A barrister at the age of twenty-one, Sir Clifford became a member of the Manitoba legislature in 1888, and entered the Greenway government as Attorney-General in 1889, being only twenty-nine years of age. From that time onward he played a conspicuous part in the development of the West.

Sir Clifford was called by Sir Wilfrid Laurier to the Federal cabinet on November 17, 1896, as Minister of the Interior and Superintendent-General of Indian Affairs. As Minister of the Interior he carried out a vigorous immigration policy, which added largely to the population of the Dominion. In the earlier period of his ministry he was specially charged with matters relating to the government of the Northwest Territories (now Saskatchewan and Alberta), and Yukon Territory, and also with the making and outlaying of territories of the Dominion. He introduced and carried through legislation at Ottawa giving responsible government to the Northwest Territories in 1898.

On account of a difference of opinion with the Premier, Sir Wilfrid Laurier, over educational clauses of the Northwest Territories Autonomy bill, Sir Clifford resigned from the Government, February 27, 1905. He continued to be a member of the House of Commons until the General Election of 1911, when he withdrew and did not present himself for reelection. He represented Brandon, Manitoba, in the Dominion Parliament from 1898 until 1911, his first election to the House of Commons being by acclamation, following upon his call to the ministry at Ottawa.

## Wins Prize For Play

Toronto.—The \$100 prize for the best one-act play submitted by the Imperial Order Daughters of the Empire, 1929 competition has been awarded to Don Wetmore, Wolfville, N.S. for his play entitled "The House of Laval." Several other plays submitted have received honorable mention, including "The Lady and the Land" by E. M. Checkley, Victoria, B.C.

Immigrants

The word immigrant has lost a great deal of its old significance in this country. Once it described one who was escaping from a life of suffering and hardship to an unknown land of freedom but of uncertain opportunities and possibilities. The modern immigrant is typified in the seven girls photographed above who were recent arrivals on the Canadian Pacific "Duchess of Richmond." Their future as domestics in the city of Toronto was assured before they left their homes, and the comfortable quarters they occupied on the royal Atlantic vessel was a long cry from the accommodation they must have endured had they been but one generation earlier.

## MAY HEAD GRAIN BOARD

Chief Justice J. L. Brown of Saskatchewan, who, it is stated, has been offered the chairmanship of the Canadian Grain Board, reorganization of which is reported imminent.

## To Investigate Salaries

Committee To Go Into Matter Of Salaries Of Technical Members Of Civil Service

Ottawa.—The three men selected to investigate the salaries of technical and professional members of the civil service are: E. W. Beatty, permanent and chairman of the Canadian Pacific Railway; Sir George Garneau, of Quebec City; and Dr. Murray, of the University of Saskatchewan, Saskatoon. This was announced by Hon. J. A. Roach, finance minister in the House of Commons. "It has been represented," Mr. Roach said, "that the remuneration provided in the government service is no longer attractive to persons of superior technical or professional training."

The report made last year by the civil service commission recommended a graduated flat increase of from \$240 to \$420 per annum. This would apply to 1,930 persons, and involves \$690,000 to one class, and \$60,000 to another, or a total of \$750,000.

## Offers Billion Marks Less

Germany Wants Big Reduction In Yearly Reparations Payments

Paris.—Germany's counter plan for paying her great war reparations, presented to the allied experts by Dr. H. Schacht, chief of the German delegation, is understood to offer one billion marks less per year than the creditors demanded.

Payments would continue thirty-seven years instead of the fifty-eight years proposed by the allies in their memorandum. The German offer envisaged annuities at 1,100,000 marks and rising to 1,450,000,000 marks.

## Unemployment Insurance

Ottawa.—The meeting of industrial and international relations committee of the house of commons took steps to prepare its report on insurance against unemployment, sickness and invalidity. The members of the committee for the most part agreed with A. W. Neil (Ind.-Compton-Alberta), that it would be a different task to prepare a report, with any degree of definiteness because of the attitude taken by the province.

The sentiment of pools, trade and producers, was that there should be different standards for Alberta grain. It was of a different type from the Manitoba and eastern Saskatchewan, and no one sample could be made which would be representative of all the grain in the west.

There is no advantage in shipping to the United Kingdom grain of any better quality than the standard samples sent each year because no better price can be obtained by the producer, Gillespie said.

Producers on the European grain exchanges set the price each year on the basis of the samples sent over early in the season by the Canadian government. If wheat of better quality appeared later the Canadian farmer would lose, he claimed.

The work of the laboratory of the Board of Grain Commissioners in Winnipeg did not have much effect on the price obtained. The billers in the Old Country made up their mind on the samples and even had information before the standards were set, because they had agents in Canada who were always taking account of conditions.

Protein content is only one factor in connection with wheat prices, Mr. Gillespie continued. It was impossible to grade wheat on protein content because No. 1 wheat and No. 5 wheat of the same protein percentage could not be mixed together. They would not have the same milling value.

## Radio Links Arctic and Antarctic Zones

Recent Broadcast Heard Over Distance of 10,000 Miles

Copenhagen.—The first radio communication between the Antarctic and Arctic zones was reported in a cablegram received here by the newspaper Extrabladet from the Mount Evans Greenland, radio station.

Mount Evans said a recent broadcast by Commander Richard E. Byrd's station in the Antarctic was heard evidently, although from a distance of more than 10,000 miles. Gasoline reserve supplies have been sent from Mount Evans to Camp Lloyd in preparation for Swedish-American trans-Atlantic flights next summer, the cablegram added.

## GRAIN INSPECTION SYSTEM SAID TO BE ANTIQUATED

Ottawa.—Standard samples set each year by the chief grain inspector are frequently higher than the minimum set by the Grain Act, and on that account cargoes are graded lower than they should be. This was the contention of John Gillespie, director representative on the grain standards board, whose evidence was continued before the agricultural and colonization committee of the house of commons.

This was the chief complaint, Mr. Gillespie said, against the inspection department. The whole inspection system was antiquated. For instance, barley was never graded No. 1 or 2, although there was lots of excellent barley produced. The Grain Act had been completely ignored for years. If the act were followed in setting barley samples it would benefit the growers.

In one case barley which weighed 46 pounds to the bushel had been refused No. 4 grade when the definition in the act did not require 45 pounds. The weight given for refusal was that the cartload was not graded as the standard sample in the hands of the inspector. This sample had weighed 44 pounds.

Hon. James Malcom, minister of trade and commerce, pointed out that there was an absurdity in the act in that connection. The definition for No. 4, actually required that the barley be so graded that should weigh less than one billion marks less per year than the creditors demanded.

In another case on appeal in regard to wheat graded No. 4, which the shipper thought should be No. 3, it was shown that it deserved the higher grade under the terms of the statute. It was refused that grade, however, because the standard sample was higher than it should have been to represent the minimum.

Millions of bushels of Alberta wheat were graded No. 1 this year when it deserved No. 2 because there were no distinct standard samples in the province. Mr. Gillespie contended. A volume of Alberta wheat had a larger percentage of green kernels than the Winnipeg sample, but in other respects was often superior. In any case he had never heard of complaints by Old Country buyers against a percentage of green kernels. This did not apply, of course, to wheat which was largely unripe.

The sentiment of pools, trade and producers, was that there should be different standards for Alberta grain. It was of a different type from the Manitoba and eastern Saskatchewan, and no one sample could be made which would be representative of all the grain in the west.

The new postal rate, it was explained, will facilitate communication between the countries and in the outcome of negotiations which have been carried on for some time between representatives of the two governments.

## Claims Large Amount For Customs Taxes

Defaults Of Payment To Government Over Seven Million

Ottawa.—Hon. P. J. Veniot, postmaster general and the deputy minister, L. J. Gibbons, will leave for Paris at the close of the present parliamentary session to sign a new postal convention between Canada and France. By the terms of the convention the letter rate between the two countries will be reduced from eight to three cents an ounce.

The new postal rate, it was explained, will facilitate communication between the countries and in the outcome of negotiations which have been carried on for some time between representatives of the two governments.

## Ulster Parliament

Belfast, Ireland.—Parliament was prorogued on the usual ceremony. It was officially announced that the Ulster parliament would be dissolved on May 2. Elections will be held May 22.

## NEW SCHEME TO SETTLE PEACE RIVER DISTRICT

Edmonton.—Settling of 1,500 families in the Peace River District under an ambitious scheme which has been submitted to the provincial government is to be undertaken by the Bowden Utilities Corporation Limited. It appears the scheme depends on what state taken by the province, as the federal authorities will not act without the approval of the Alberta government.

The scheme is said to involve an expenditure of \$10,000,000, while backing has been assured by influential financial interests in the Old Country, according to A. D. Bowen, head of the company. The settlement would be in the ten townships, beginning in township 74, range 24, east of the D. and B. C. Railway at Aggo, and then west and south to Steurgeon Lake. British settlers would be brought out, while a saw mill, pulp and board mills would be operated, thus providing employment. The company would build a track way through the entire area, construct serviceable roads on each section line, clear the land for cultivation, and build a house and barn on each quarter section for the occupancy of each settler, who would acquire the land on long term leases.

"The federal government at Ottawa is quite ready to make the reservation if there is no objection from the provincial government," said Mr. Bowen. "If satisfactory arrangements are made, we would make a start by bringing out 60 settlers this year."

## Japan Asks Clearer Wording Of Pact

Phrase In Kellogg Peace Pact Contrary To Constitution

Tokio.—Katajui Debuchi, Japanese ambassador to Washington, has been instructed to obtain an understanding from the American government on the question of the phrase "their respective peoples" in the Kellogg peace pact.

This phrase is incompatible with the Japanese constitution, which stipulates that all sovereignty lies in the person of the emperor. The newspaper states that if America rejects the Japanese reservations then it would be in contradiction with the spirit of the pact.

The reservations, it is reported, suggest the deletion of the objectionable phrase, a revision, or a special explanation. Such a modification will require the consent of all the contracting powers.

## Lower Postal Rate With France Arranged

Letter Rate To Be Three Cents Per Ounce Instead Of Eight

Ottawa.—Hon. P. J. Veniot, postmaster general and the deputy minister, L. J. Gibbons, will leave for Paris at the close of the present parliamentary session to sign a new postal convention between Canada and France. By the terms of the convention the letter rate between the two countries will be reduced from eight to three cents an ounce.

The new postal rate, it was explained, will facilitate communication between the countries and in the outcome of negotiations which have been carried on for some time between representatives of the two governments.

## Claims Large Amount For Customs Taxes

Defaults Of Payment To Government Over Seven Million

Ottawa.—A total of \$2,370,782.51 has been recovered during the past three years from persons and corporations by the government in connection with defaults of payment of customs and excise taxes, disclosed in the inquiry of the royal customs commissioners. Still outstanding, and claimed by the department of national revenue as due the government, is the sum of \$7,114,462.73. This was disclosed in a reply tabled in the House of Commons by Hon. W. D. Euler, minister of national revenue.

## Ulster Parliament

Belfast, Ireland.—Parliament was prorogued on the usual ceremony. It was officially announced that the Ulster parliament would be dissolved on May 2. Elections will be held May 22.

The Altermatt Orchestra furnishes music for the Moose Saturday night dance.

Miss Phyllis Duffy, of Los Angeles, has been a holiday guest of Miss Julia in Utill here for the past few weeks.

Robert A. Parker, past grand master of the I.O.O.F., is in the Pass this week from Calgary.

Remember the dance to be held in the Union hall at Hillcrest on Tuesday evening next.

Jack Brooks has been elected to succeed Thomas Bradley as a member of the Bellevue Board of School Trustees.

FOR SALE—1925 Ford Coupe, in good shape, newly overhauled, two new tires and new battery. Apply to Mark Levangie, Greenhill hotel.

Joseph O'Neill and family arrived Saturday from Prescott, Ontario, and will make their home here for the summer.

Dr. Reinhorn, of Bellevue, is suffering from an attack of scarlet fever and his practice is being looked after by Dr. Honey.

Quite a number from this district, including Sergt. Jones, attended the funeral of the late Thomas Harriman Stedman at Macleod yesterday.

In a letter received by us the early part of the week, Mr. S. J. Sargent, of Surrey, England, wished to be remembered to old friends in this district.

FOR ENTIRE WEEK — Shoulder Pork, per lb 25¢; Pure Pork Sausage, per lb 25¢; Eggs, 3 doz \$1.00; Glen-dale Butter, 2 lbs 95¢. Fresh killed Veal and Baby Beef, a right price. Fresh Halibut, Cod, Salmon, etc., arriving from the coast Thursday. Fresh Shoulder Beef, per lb 18¢ and 22¢. Fresh Chicken and Fowl. Satisfaction guaranteed or money cheerfully refunded.—BURNS & CO., LIMITED.

Thomas McNabb, one of the pioneers of Southern Alberta, died suddenly at Lethbridge on Thursday evening last at the ripe age of 80 years. He is survived by a widow and several sons and daughters. Major W. B. Burnett is a brother-in-law.

**BOARD OF TRADE MEETING**

A meeting of the Blairmore Board of Trade will be held at the office of the Crows' Nest Pass Motors on Monday evening at 5 o'clock, when a full attendance of members is requested, as important matters are to be dealt with.

A dance will be held in the Union hall at Frank on Tuesday night next. The Altermatt orchestra will furnish music.

Dr. J. A. Key has been in Bellevue for some days, assisting in packing furniture, etc., preparatory to moving his family to Nordegg, where he is now stationed.

Jack Taylor, British Empire heavy-weight wrestling champion, and Waldeck Zbyzko, famous Polish matman, wrestled for two hours and thirty minutes at Saskatoon on Monday night without either gaining a fall.

The Antrobus shoe store at Cole man has just installed a new machine for repairing. This is the first machine of the kind to come into the province and will help to give real up-to-date service as well as quality workmanship.

The legal Elks have appointed their 1929 carnival manager and committee. This committee will have the power to set dates for the carnival and make all other necessary arrangements. In all likelihood, the carnival will open during the last week in June. It is expected that definite announcement in this regard will be forthcoming within the next few weeks.

On Thursday evening of last week, April 18th, the new hall of St. Theresa's parish Hillcrest, was officially opened. The children of the parish were given a banquet by the C.W.L., to which were invited many guests and friends. Among those present noted were Rev. Father Harrington, of Blairmore, and Rev. Father Lehman, of Coleman, also about a dozen of the young ladies from that parish. After the supper, the children entertained by repeating a concert they recently staged in Hillcrest. A lot of fun was provided too, by the many games that were played. Rev. Father Donovan, parish priest at Hillcrest, presided at the festivities.

PASTURE TO RENT—Sec. 21-7-2, 5,600 acres, all fenced. Divided into four pastures, good water and shelter. On main road between Burns and Lundbreck. Rental \$100 a year, half in advance. Apply A. N. Cox, Lundbreck P.O., or phone 708, Cowley.

NOTICE is hereby given that the partnership heretofore subsisting between the undersigned, James H. Eddy and Nick Kuryluk, trading under the firm style of "Eddy & Kuryluk" at Bellmores, Alberta, has been dissolved from March 31st, 1929. PATED at Bellmores, Alberta, this 17th day of April, 1929.

JAMES H. EDDY.  
NICK KURYLUK.
